Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
 - If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
 - Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

A proper Terminal Disclaimer is acknowledged.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 3, 4, 5, 7, 8, 19-23, 25 and 26 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Winter et al (US 5,280,124).

Rejection is maintained for reason of record with following response.

Again, Winter et al teach manufacturing of shaped articles from organic polymers containing hydroxyphenyl benzotriazoles at col. 12, lines 24-37 and said shaped articles encompass the instant clear or lightly colored container. Various amorphous and low crystalline polymers such as polystyrene, polycarbonate or polyester (such as PET) yielding clear thin sheet are also taught at cols. 10 and 11. PET is well known clear container for 2-liter soda bottles. Formula (III) of claims 5 and 8 is an optional component when combined with claim 1.

Applicant asserts unexpected result based on formulations 4 and 5 over formulation 2, but it has little probative value for following reason;

1. Said unexpected result cannot overcome anticipation rejection.
2. Showing (particular stabilizer as well as PET bottle and particular contents) is narrower than the claimed scope even if said showing had probative value.

Claims 1, 3, 4, 5, 7, 8, 19-23, 25 and 26 are rejected under 35 U.S.C. 103(a) as obvious over Winter et al (US 5,280,124) in view of Birbaum et al (US 5,597,854).

Rejection is maintained for reason of record with above response.

Claims 1, 3, 5, 8, 21-23, 25 and 26 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Rody et al (US 4,127,586).

Rejection is maintained for reason of record with the same response given under Winter et al above.

Claims 6, 9, 10 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
